Any questions concerning the proposed treatment should be directed to SOLitude Lake Management at the above address.

Those wishing to comment on the proposed application may contact the New Hampshire Department of Agriculture, Division of Pesticide Control to request a public hearing. Comments must be received in writing within 15 days of receipt of this notice.

The treatment is tentatively scheduled for late June to early July 2024. Based on past experiences, we expect that the State will impose **restrictions** on the use of treated lake water for **irrigation** purposes. The specific use restrictions will be determined at the time the permit is issued and will be communicated directly to you in the notification of treatment that will be sent by certified-mail.

The restrictions apply to all intakes within 200 feet of the treatment area, and to all wells within 50 feet of shoreline that itself is within 200 feet of a treatment area. **Intakes (black pipe) that draw water directly from Namaske Lake within 200 feet of proposed treatment areas WILL be subject to irrigation restrictions.** If you have a well within 50 feet of the lake or an intake, please let us know by contacting our office weekdays at (508) 865-1000 or by emailing NewHampshire@SolitudeLake.com. Please be sure to reference **Namaske Lake** in your email.
